Scotchgard™ Liquid Stain Remover Ready-to-Use

Technical Data

May 2008

Description:

Scotchgard™ Liquid Stain Remover is a ready-to-use product specially formulated for daily use on common spots and spills. This effective stain remover is an important part of the 3M™ Carpet Care System.

Special Features:

- Effectively removes most common spots & spills
- No mixing or dilution required
- No rinsing required
- No sticky residue to cause resoiling

Applications:

- Commercial and residential carpets
- Most carpet fibers (nylon, polyester, olefins, wool & blends)
- Most carpet styles (loop or cut piles)
- Safe for use on stain resistant nylon fibers

Packaging:

946 ml (1 quart) trigger bottle

12 – bottles per case

Note:

A foaming trigger sprayer is provided in each 12-bottle case. The stain remover may be applied as foam rather than liquid to minimize the overuse of chemical and water.

Important:

The information provided in this report is believed to be reliable; however, due to the wide variety of intervening factors, 3M does not warrant that the results will necessarily be obtained. All details concerning product specifications and terms of sale are available from 3M.

General Use Directions:

Note:

Test the liquid stain remover in an inconspicuous area to make sure the carpet is colourfast. Apply ready-to-use solution to a small area. After several minutes, blot the carpet with a clean white cloth or paper towel. If color from the carpet transfers to the cloth or towel, discontinue use.

1. Pour ready-to-use liquid stain remover into a trigger spray bottle.
2. Spray product directly on stained area of the carpet.
3. Gently work the liquid into the stained fiber using a blunt tool such as a plastic scraper, spoon or butter knife.
4. Start at the outer edge of the stained area and blot with a clean, white, absorbent cloth to remove the stain.
5. Turn cloth often to expose a clean, absorbent surface, and continue blotting until you no longer see color from the stain being transferred to the cloth.
6. Repeat the process if necessary to remove difficult stains.

Product Specifications:

(Typical Values)

1. pH: approx. 9.6
2. Flashpoint: > 93.3 °C TCC
3. Solubility in water: Complete
4. Specific Gravity: 1 water=1
5. Viscosity: <100 cps
6. Appearance: Clear, light amber liquid
7. Fragrance: Floral

Precautionary Summary:

Eye Contact: Moderate eye irritant

Skin Contact: Moderate skin irritant; Allergic Skin Reaction

Inhalation: May cause upper respiratory tract irritation

Note: Refer to product Material Safety Data Sheets (MSDS: 19-0049-7) for specific health hazard, first aid and precautionary information.
