4. FIRST AID MEASURES

Inhalation	Move to fresh air
Skin Contact	Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. If skin irritation persists, call a physician.
Eye Contact	If in eyes, Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison Control Center or Doctor for treatment advice.
Ingestion	Clean mouth with water and afterwards drink plenty of water. DO NOT INDUCE VOMITING. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
Notes to Physician	Contains Denatured Ethyl Alcohol Ingestion may result in ethanol poisoning Treat symptomatically
Protection of First-aiders	Use personal protective equipment.
Aggravated Medical Conditions:	NOTE TO PARENTS: Intentional misuse by deliberately concentrating and inhaling aerosol products may be harmful or fatal. Help stop inhalation abuse; for information visit www.inhalant.org .

5. FIRE-FIGHTING MEASURES

Flash point:	25.6°C (78°F) Aerosol flame extension less than 18 inches (45 cm). FLAMMABLE AEROSOL.
Suitable Extinguishing Media:	Use water spray, dry chemical, CO ₂ , or "alcohol" foam as suitable for the surrounding fire conditions.
Unsuitable Extinguishing media:	No information available
Unusual hazards:	Aerosol cans may explode with extreme heat and become projectiles.
Special protective equipment for fire-fighters	As in any fire, wear self-contained breathing apparatus, pressure-demand, MSHA / NIOSH (approved or equivalent) and full protective gear.
Precautions for fire-fighting	Standard procedure for chemical fires. Move aerosol containers away from fire if possible and safe to do so. Use water spray to cool fire exposed containers. Provide shielding to protect firefighters from venting, rupturing or bursting containers.

6. ACCIDENTAL RELEASE MEASURES

- Personal Precautions:** Ensure adequate ventilation.
- Environmental Precautions:** Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained.
- Methods for Cleaning Up:**
- Small spills: Wearing appropriate protective equipment, soak up with an inert absorbent material and dispose of in an appropriate waste container. Rinse surface residue and flush to sink or sanitary sewer.
- Large Spills: Eliminate all sources of ignition and ventilate the area with equipment rated for use in flammable environments.
- Collect any remaining liquid and store in metal container for later disposal according to local, state, provincial or federal regulations.
- Methods for Containment:** Prevent further leakage or spillage if safe to do so

7. HANDLING AND STORAGE

- Handling:**
- Use only as directed on the container label.
 - Ensure adequate ventilation
 - Avoid breathing vapors or mists
 - Avoid contact with skin, eyes and clothing
 - Wear personal protective equipment
 - Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet
 - Do not puncture or incinerate cans
 - Keep product and empty container away from heat and sources of ignition.
- Storage:**
- Store in original container in areas inaccessible to small children and pets.
 - Store in cool/well-ventilated place
 - CONTAINERS SHOULD BE KEPT OUT OF REACH OF CHILDREN.
 - Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 55°C.
 - Do not pierce or burn after use. Keep away from all sources of ignition.
 - Fires involving flammable aerosols are severe and can spread very quickly. Warehouses and stores containing aerosols should therefore be separated from other areas by a fire resistant construction of at least one half hour duration.
 - Stores should be well ventilated, particularly at low levels. The natural ventilation in a large open warehouse building will normally be suitable.
 - Avoid the storage of aerosols in basements where practicable.

This product must be stored and handled in accordance with the NFPA and local Fire Code flammable liquids regulations.

- EPA Registered Product:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.
