MATERIAL SAFETY DATA SHEET

1. Product and Company Identification

Material name SSS OmniAir™ Odor Management Refill, Cucumber Melon

Product # 74131 Version # 01

Issue date 01-03-2013

Revision date - Supersedes date -

CAS # Mixture
Manufacturer/Supplier Triple S

2 Executive Park Drive Billerica, MA 01862

Telephone number: (978) 667-7900 **Emergency** 1-888-779-1339

2. Hazards Identification

Physical state Liquid.

Appearance Clear, pale yellow liquid.

Emergency overview WARNING

Combustible liquid and vapor.

Causes skin irritation.

OSHA regulatory status This product is hazardous according to OSHA 29 CFR 1910.1200.

Potential health effects

Routes of exposure Inhalation. Eye contact. Skin contact.

Eyes Direct contact with eyes may cause temporary irritation.

Skin Causes skin irritation.

InhalationIn high concentrations, vapors may be irritating to the respiratory system.IngestionNo harmful effects expected in amounts likely to be ingested by accident.

Potential environmental effects The product is not classified as environmentally hazardous. However, this does not exclude the

possibility that large or frequent spills can have a harmful or damaging effect on the environment.

3. Composition / Information on Ingredients

Components	CAS#	Percent
Hexyl Acetate	142-92-7	15 - 25
Linalool	78-70-6	5 - 15

Composition comments All concentrations are in percent by weight.

4. First Aid Measures

First aid procedures

Eye contact Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open

eyelids wide apart. In case of irritation from airborne exposure, move to fresh air. Get medical

attention if symptoms persist.

Skin contact Wash with soap and water. Get medical attention if symptoms occur after washing.

Inhalation If symptomatic, move to fresh air. Get medical attention if symptoms persist.

Ingestion Rinse mouth thoroughly. Seek medical advice. Only induce vomiting at the instruction of medical

personnel.

5. Fire Fighting Measures

Flammable properties The product is combustible, but not flammable.

 Cucumber Melon
 CPH MSDS NA

 908200
 Version #: 01
 Revision date: - Issue date: 01-03-2013
 CPH MSDS NA

Extinguishing media

Suitable extinguishing

media

Water fog. Carbon dioxide (CO2). Dry chemical. Foam.

Unsuitable extinguishing

media

Do not use water jet as an extinguisher, as this will spread the fire.

Protection of firefighters

Protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting

equipment/instructions

Use water spray to cool unopened containers. Cool containers with flooding quantities of water

until well after fire is out.

Hazardous combustion

products

Carbon oxides.

6. Accidental Release Measures

Personal precautions Ensure adequate ventilation. Eliminate all ignition sources (no smoking, flares, sparks or flames in

immediate area). Avoid contact with skin. See Section 8 of the MSDS for Personal Protective

Equipment.

Environmental precautionsDo not contaminate water. Contact local authorities in case of spillage to drain/aquatic

environment.

Methods for cleaning up Remove sources of ignition. Beware of the explosion danger. Stop the flow of material, if this is

without risk. Dike the spilled material, where this is possible.

Small Spills: Absorb spillage with non-combustible, absorbent material.

Large Spills: Use a non-combustible material like vermiculite, sand or earth to soak up the product

and place into a container for later disposal.

7. Handling and Storage

Handling Wear appropriate personal protective equipment. Provide adequate ventilation. Avoid contact with

eyes, skin, and clothing. Do not taste or swallow. Wash thoroughly after handling.

Storage Do not handle or store near an open flame, heat or other sources of ignition. Protect against direct

sunlight. Store in tightly closed original container in a dry, cool and well-ventilated place. Keep away from food, drink and animal feeding stuffs. Store away from incompatible materials. Avoid

uncoated metal containers. Minimize exposure to air.

8. Exposure Controls / Personal Protection

Occupational exposure limits

Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents)

Components	Туре	Value
Hexyl Acetate (142-92-7)	TWA	294 mg/m3
		50 ppm

Engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates

should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal protective equipment

Eye / face protection Wear safety glasses with side shields (or goggles).

Skin protection Wear chemical-resistant gloves, footwear and protective clothing appropriate for risk of exposure.

Contact glove manufacturer for specific information.

Respiratory protection In case of inadequate ventilation use suitable respirator.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

9. Physical & Chemical Properties

Appearance Clear, pale yellow liquid.

Physical state Liquid.
Form Liquid.

Color Colorless to pale yellow.

10. Chemical Stability & Reactivity Information

Chemical stability Material is stable under normal conditions.

Conditions to avoid Contact with incompatible materials. Keep away from heat, sparks, and flame.

Incompatible materials Strong oxidizing agents. Strong acids. Alkalis. **Hazardous decomposition** Carbon oxides. Unidentified organic compounds.

products

Possibility of hazardous

reactions

Will not occur.

11. Toxicological Information

Toxicological data

Components	Species	Test Results	
Linalool (78-70-6)			
Acute			
Dermal			
LD50	Rabbit	2000 mg/kg	
	Rat	5610 mg/kg	
Oral			
LD50	Mouse	3000 mg/kg	
Sensitization	No sensitizing effects known.		
Acute effects	Causes skin irritation.		
Chronic effects	Chronic effects are not expected when this product is used as intended.		
Carcinogenicity	None known.		

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not available.

media

No data available.

13. Disposal Considerations

Disposal instructions Dispose of contents/container in accordance with local/regional/national/international regulations.

Do not allow this material to drain into sewers/water supplies.

Waste from residues / unused

products

Dispose of waste and residues in accordance with local authority requirements.

Contaminated packaging Since emptied containers retain product residue, follow label warnings even after container is

emptied.
