

CG48 Gannet

Ship deck scrubber

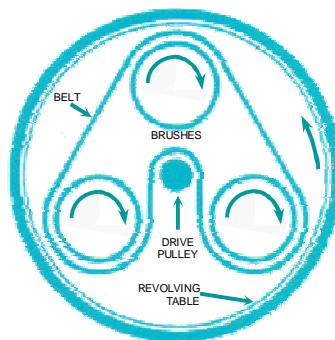

Cimex CG48 deck scrubber is designed for the arduous conditions found on board ocean going ships

- Designed for marine operation
- Suitable for use on all types of vessel
- Ideal for routine cleaning of decks and corridors
 - Brushes will not cause wood abrasion or raising of the grain
 - Non-corrosive materials used for maximum durability
 - Cimex three brush system provides stability and ease of handling, even with the ship moving in a seaway
 - Wide range of brushes – for scrubbing wooden and painted decks or even cleaning hatch canvasses
 - Water delivered through brush centres reduces splashing
 - Floating brushes are effective on uneven surfaces
 - High productivity makes optimum use of available labour and minimises passenger disruption

The triple-brush mechanism incorporates a contra-rotating planetary drive disc. This gives a vigorous action that cleans in all directions with the brushes cleaning deep into the grout lines of tiled floors or around the contours of studded non-slip floors.

Specification		
Motor power	watts	1500
Brush Speed	rpm	400
Tank Capacity	litres	25
Working width	cm	48
Weight	kg	50
Noise level	dB(A)	60
Cable length	metres	15
