Enzyme Laundry Detergent

Clothesline Fresh Enzyme Laundry Detergent is fortified with enzymes and optical brighteners to quickly digest and wash away stubborn stains and soils, while leaving the fabric cleaner and brighter than ever before. The concentrated blend of enzymes found in Clothesline Fresh Enzyme Laundry Detergent gives you the ability to wash at lower water temperatures and with fewer chemicals while showing an increase in stain removal, whiteness, and soil antiredepositon.

Providing Quality Maintenance and Chemical Specialty Solutions with Unparalleled Customer Service

CONTEMPORARY CLEANING TECHNOLOGY:

Clothesline Fresh Enzyme Laundry Detergent is enhanced by patented polymeric technology. This technology quickly suspends tough, oily and particulate soils to prevent them from redepositing back onto the fabric. Clothesline Fresh Enzyme Laundry Detergent's surfactants are listed on the EPA's Design for Environment Cleangredients® list. Clothesline Fresh Enzyme Laundry Detergent is readily dispersible in water temperatures as low as 40°F. Clothesline Fresh Enzyme Laundry Detergent does not contain phosphates or nonylphenol ethoxylate, both of which can have a negative environmental impact.

COLOR AND NUMBER SYSTEM:

Each Clothesline Fresh Laundry product has been color coded and number coded for easy product identification. All product information and literature, plus, each product label, carton and secondary label reflects this color and number, making training easier and faster.

DIRECTIONS FOR USE:

DO NOT MIX WITH OTHER CHEMICALS.

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet.

- Sort laundry by color and fabric type.
- Always read and follow care directions.
- From care directions, choose proper wash cycle and water temperature.
- Do not overload washer with soiled laundry.
- Add Clothesline Fresh Enzyme Laundry Detergent.

- Top Load Washers: Use 1/16 to 1/8 cup, or 0.5 to 1 oz., depending on soil load. For excessively high soil loads, use ¼ cup or 2 oz.
- Front Load Washers: Use 1/8 to ¼ cup, or 1 to 2 oz. per 50 lbs. of dry soiled laundry.
- For heavily stained linen, apply Clothesline Fresh Enzyme Laundry Detergent directly on the stain and allow it to dwell on the fabric before laundering.

NOTE: Optimal water temperature for enzymatic activity is 70°F - 150°F.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATIONS:

- Specific Gravity - 1.013
- Density – 8.43
- Viscosity - 0 - 20 cpois
- pH – 7.5 – 8.5
- Solvents - None
- Color – Aqua Blue
- Stability -
 - Shelf – One year minimum @ 24°C/75°F
 - Accelerated – 30 days minimum @ 49°C/120°F
 - Freeze/Thaw – Can withstand three freeze/thaw cycles

Phosphate free
 Nonylphenol ethoxylate free
 Solvent free
 Silicate free
