- Comfort Grip
- Swivel Head
- Low Profile
- Solution Line Swivel
- PTFE Banana Glide

OPERATING INSTRUCTIONS

1. Attach wand to the vacuum solution lines from your extractor.
2. Key wand trigger to clear air from lines. You should have a strong spray pattern when primed. (Note: The Bentley works best at pressures above 200 PSI.)
3. Adjust solution swivel to comfortable position.
4. Begin cleaning. Make two dry passes for each wet pass for maximum recovery.
5. When finished cleaning, key wand with extractor off to clear all solution from the line.
6. Between uses, store wand in warm, dry place. Do not allow unit to freeze.

MAINTENANCE & TROUBLESHOOTING

1. Clean jets regularly. Clogged or dirty jets can lead to irregular spray pattern. To clean, remove jet and use compressed air to clean. You may also soak the jets in Mytee System Maintainer (Item #3601) to remove hard water and chemical build up.
2. Keep glide orifices clean. The back of your Bentley wrench has a finger that can be used to clear these openings.
3. Keep head free of debris. Swivel head can be removed for cleaning using enclosed wrench. Lubricate regularly with a silicone lubricant.
4. Replace glide when worn. Replacement glides (Item #H536) can be ordered from your Mytee distributor.
5. Regularly inspect wand for worn or damaged parts as needed.
6. Clean aluminum head regularly. To restore luster, aluminum polish may be used.

In addition, the purchaser must provide the product to which the claim applies to Mytee or a Mytee authorized distributor or service center for a thorough inspection.

If any provision or portion of this limited warranty policy is found to be unenforceable, then the remaining provisions and portions shall remain valid and enforceable. If any provision or portion of this limited warranty policy is found to be limited by law, then that provision or portion shall be construed to make it effective within the bounds of law. For example, if there are legal limitations on the duration of warranties, the warranties made herein shall be construed to have the minimum duration required by law, or, if there are legal limitations of exclusion of remedies, the exclusions made herein shall be construed to apply to the fullest extent possible without violating the law.
